Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

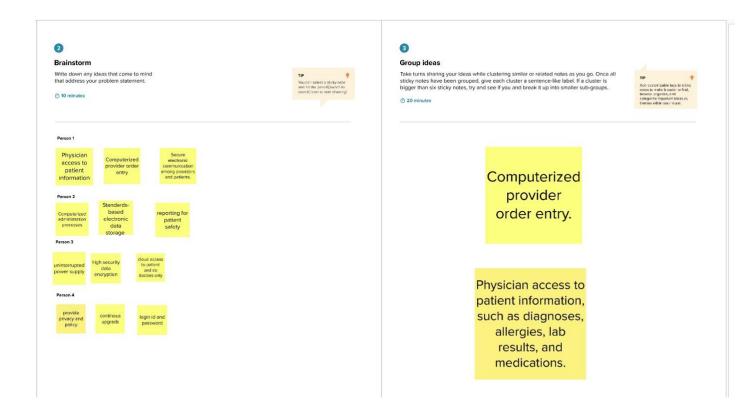

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Define your problem statement Before you collaborate What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the search and collect information about the problem as a How Might focus of your brainstorm. Electronic health records. collect the required information **Brainstorm** & idea prioritization Use this template in your own EHR providers may not brainstorming sessions so your team update their systems can unleash their imagination and start shaping concepts even if you're Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session. not sitting in the same room. Go for volume.

If possible, be visual.

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Step-2: Brainstorm, Idea Listing and Grouping

Step-3: Idea Prioritization

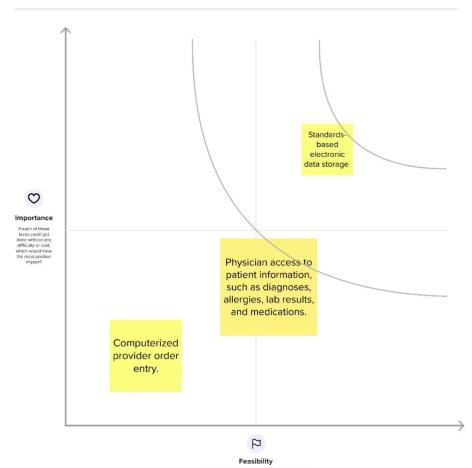

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

① 20 minutes

TIP

Participants can use their cursors to point at where sticky notes should go an the grid. The facilitator can confirm the spot by using the laser pointer holding the H key on the keyboard.

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
